TO WHOM IT MAY CONCERN

IKHAYALOTHANDO COMMUNITY CENTRE

I have been involved with Ikhayalothando at the request of the Department of Social Development. My role was to provide oversight monitoring and evaluation, provide guidance and support in my capacity as their Consultant /Mentor/ Coach.

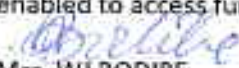

The main objective of my involvement was to assist the organization to re- established itself and to fulfill its mandate. In this regard I assisted the organization to work on its constitution, establish management board and hire staff.

Ikhayalothando is able to function and my Consultation role as per arrangements with the Department has run its full course. My organization continues to provide professional support to staff. In this regard we have enabled the social worker to fulfill her statutory obligations and to ensure that children placed in the Home are protected and cared for.

While it might appear as if we have same programs there are elements within the programs where we differ. Our services are therefore complimentary.

I have no insights into the organizations finances but want to believe that they are in order and that they operate within the non profit regulations as mandated by the Department in line with prescribed Acts.

In view of the services being rendered and the benefit to the community that Ikhayalothando is serving, I wish to recommend that their application for funding be objectively scrutinized and that they are enabled to access funding
